IN RE: DEVELOPMENT FLAN HEARING and * BEFORE THE PETITION FOR VARIANCE - W/S of Walther Boolevard at Joppa Road * DEPUTY ZONING COMMISSIONER (Cak Crest Village) 11th Election District * OF BALTIMORE COUNTY 6th Councilmanic District * Case Nos. XI-695 & 94-263-A Nottingham Properties, Inc. and Senior Campus Living - Owner and * Contract Purchaser/Developer

FINDINGS OF FACT AND CONCLUSIONS OF LAW

This matter comes before this Hearing Officer as a combined Development Plan Hearing/Petition for Variance for the subject property located on Walther Boulevard, just south of its intersection with Joppa Road in the Carney area of Baltimore County. The property consists of 87.54 acres, more or less, zoned D.R. 16. The owners of the subject property, Nottingham Properties, Inc. and the Contract Purchasers, Retirement and Health Services Corporation (d/b/a Senior Campus Living) request consideration of d development plan prepared by Daft-McCune-Walker, Inc., for the proposed development of the subject property by Senior Campus Living as a continuing care facility for the elderly in accordance with the plan submitted into evidence as Developer's Exhibit 1. In addition to development plan approval, the Developer seeks variance relief from the Baltimore County Zoning Regulations (B.C.Z.R.) and the Comprehensive Manual of Development Policies (C.M.D.F.) as follows: From Section 1B01.1.B.1(e).2 (Section II.A, p.15 of the C.M.D.P.), to permit the operations and maintenance building to be as close as 50 feet to the property line in a residential transition area (RTA) in lieu of the required setback of 75 feet and, in accordance with Section 1881.1.B.1(e).3, to permit a graded buffer and 40-foot landscape buffer for construction of the operations and maintenance building in the RTA in lieu of the required ungraded and 50-foot landscaped buffer; and

from Section 1B01.1.B.1.e(2) and (5) of the B.C.Z.R. (Section II.A, p.15 and 16 of the C.M.D.P.) to permit a setback and buffer of 10 feet each in lieu of the required 75 feet and 50 feet, respectively, and from Section 1B01.1.B.1(e) 3 (Section II.A, p.15 and 17 of the C.M.D.P.) to permit the buffer to be graded and planted in lieu of the uncleared required in accordance with the plan submitted into evidence as Petitioner's Exhibit 1.

Appearing at the public hearing required for this project were Bruce Campbell of Nottingham Properties, Inc., Owner of the subject property, Wayne Rush, W. Fred Walker, and Paul Erickson of Senior Campus Living, Contract Purchasers, and Ed Haile and Dick Baummer, Professional Engineers with Daft-McCune-Walker, Inc., the engineering firm who prepared the Development Plan for the subject site. The Petitioners were represented by Stephen J. Nolan, Esquire. Numerous representatives of the various Baltimore County agencies who reviewed the plan attended the hearing. There were no citizens from the surrounding community in attendance.

As to the history of this project, a concept plan conference for this development was held on October 4, 1993. As required, a community input meeting was held on October 27, 1993. Subsequently, the developer submitted a development plan and a conference thereon was conducted on January 19, 1994. Following the submission of that plan, comments were submitted by the appropriate agencies of Baltimore County and a revised development plan incorporating these comments was submitted at the hearing held before me on February 9, 1994.

At the preliminary stage of the development plan hearing, I am required to determine what, if any, agency comments remain unresolved. On behalf of the Developer, Mr. Stephen Nolan identified an issue raised by Baltimore County regarding the installation of sidewalks on the northwest

side of Walther Boulevard along the owner's property line. It is the Developer's position that sidewalks are not necessary on this side of Walther Boulevard in that no pedestrian traffic will be generated by the proposed use. Mr. Nolan stated that he was unaware of any other unresolved comments.

I then asked the representatives of the variour County agencies in attendance whether they were aware of any unresolved issues upon which testimony needed to be taken. On behalf of the Office of Planning and Zoning, Mr. Irvin McDaniel reiterated the need for sidewalks on the Developer's property along Walther Boulevard. In addition, Mr. Michael Grossman, on behalf of the Department of Recreation and Parks, raised an issue concerning the 7.3 acres of local open space situated in the southwest corner of the subject site.

In response to the issues raised, the Developer first called Ed Haile, Professional Engineer with the firm of Daft-McCune-Walker, Inc., to testify concerning the issue of sidewalks. Mr. Haile testified that in his opinion, sidewalks are not necessary on the northwest side of Walther Boulevard because that area will not be utilized by pedestrian traffic. He testified that the proposed development of the subject property as a continuing care facility for 2400 senior citizens will not generate foot traffic along this side of Walther Boulevard. Mr. Haile further testified that there is a sidewalk on the opposite side of Walther Boulevard which could easily handle any pedestrian traffic that might access this area. Mr. Haile testified that to require sidewalks would only increase maintenance costs for his client. Furthermore, Mr. Haile testified that the Mass Transit Administration (MTA) plans to locate a bus stop on the Petitioners' property and not on Walther Boulevard. Therefore, it will not be

necessary for anyone utilizing public transportation to this site to walk along Walther Boulevard since there will be a bus stop at the entrance to the site. Mr. Haile stated that in his opinion sidewalks on this side of Walther Boulevard are not necessary.

On behalf of the Office of Planning and Zoning, Mr. Irvin McDaniel offered testimony concerning the sidewalk issue. Mr. McDaniel stated that it is the position of his Office as well as the Department of Public Works that sidewalks should be installed on the northwest side of Walther Boulevard. He did, however, agree that inasmuch as this property will be developed as a residential-type community, the sidewalks could be 4 feet in width and not the 5-foot width requested by Baltimore County.

Further testimony revealed that as part of the proposed extension of Walther Boulevard from Dunfield Road south, Baltimore County is going to install sidewalks along a portion of the Owner's property on Walther Boulevard in a southerly direction from Dunfield Road. Inasmuch as Baltimore County is planning to install a 4-foot wide sidewalk along the southeastern portion of the subject property, I believe the Developer should be required to install sidewalk along the remaining portion of their property on Walther Boulevard to the point where their property ends. Therefore, as a condition of development plan approval, I shall require the Developer install that portion of sidewalk for which it will be responsible prior to the issuance of any occupancy permits.

Mr. Michael Grossman, a representative of the Department of Recreation and Parks, raised an issue concerning the 7.3 acres of local open space situated on the west side of the subject property. Mr. Grossman testified that his office would like to see this local open space remain open to all citizens of Baltimore County and not just those elderly resi-

dents of the proposed continuing care facility. He testified that since this local open space is contiguous and adjacent to existing open space located south of this development, it would be ideal for the proposed 7.3 acres of local open space to be included within the existing open space. He testified that in his opinion, this 7.3 acres should be dedicated to Baltimore County and maintained by the Department of Recreation and Parks.

On this issue, Mr. Fred Walker, a representative of Senior Campus Living, the Contract Purchaser and Developer, offered testimony. Mr. Walker testified that this 7.3 acres of local open space is extremely important to the proposed development in that this space will be set aside for walking paths and park area for the up to 2400 senior citizens who will reside at this facility. He testified that it is also extremely important to fence off this open space area from public access so that a secure area will be provided for residents of the facility to enjoy. He stated that security is one of the major selling points for senior living facilities. He stated that to require this 7.3 acre area to remain open to the public would pose a safety hazard to the residents of this community and would have a deleterious effect on the sale of residences within this facility.

Mr. Ed Haile also testified concerning the issue of local open space. He stated that the Developer wishes to erect a 6-foot high chain link fence on its property line adjoining the residential communities nearby in order to provide a safe and secure environment for the seniors who will reside in this continuing care facility. He testified that the same process has been followed at other retirement communities with which he is familiar. He identified Charlestown in Catonsville, Blakehurst in Towson and North Oaks and other retirement communities which maintain private local open space for their residents. He stated that in none of

those other retirement communities has the open space been dedicated for public use.

Further testimony revealed that the residents who live along Burton Avenue were under the impression that this 7.3 acres of open space would be secured by a 6-foot high security fence to prevent undesirables from being able to access this area. This was a major issue with the neighbors and they were assured by the Developer that this area would be maintained by the Developer and not accessible by the public.

On the issue of local open space, I think it is extremely important that the residents of the proposed facility have a safe and secure area within which to walk and enjoy. Therefore, I believe that the Developer should be permitted to secure this 7.3 acre open space area for the exclusive use of the residents of this continuing care facility and to construct the 6-foot high chain link fence along their property line. This local open space area shall not be open to the public and shall be under the exclusive control of the Owner.

There were no other issues identified by either the Developer or representative of any other Baltimore County reviewing agency. Therefore, having resolved the only issues raised at the hearing, the Development Plan as submitted shall be approved.

The Developer next offered testimony through Mr. Ed Haile as to the variance relief sought for the proposed facility. Mr. Haile testified as to the legal justification for the granting of these variances and there being no testimony in opposition to the relief requested, the variances shali be granted.

An area variance may be granted where strict application of the zoning regulations would cause practical difficulty to the Petitioner and his property. McLean v. Soley, 270 Md. 208 (1973). To prove practical difficulty for an area variance, the Petitioner must meet the following:

- 1) whether strict compliance with requirement would unreasonably prevent the use of the property for a permitted purpose or render conformance unnecessarily
- 2) whether the grant would do substantial injustice to applicant as well as other property owners in the district or whether a lesser relaxation than that applied for would give substantial relief; and
- 3) whether relief can be granted in such fashion that the spirit of the ordinance will be observed and public safety and welfare secured.

Anderson v. Bd. of Appeals, Town of Chesapeake Beach, 22 Md. App. 28

It is clear from the testimony that if the variance is granted, such use, as proposed, will not be contrary to the spirit of the B.C.Z.R. and will not result in any injury to the public good.

After due consideration of the testimony and evidence presented, it is clear that practical difficulty or unreasonable hardship will result if the variance is not granted. It has been established that special circumstances or conditions exist that are peculiar to the land or structure which is the subject of this variance request and that the requirements from which the Petitioner seeks relief will unduly restrict the use of the land due to the special conditions unique to this particular parcel. In addition, the variance requested will not cause any injury to the public health, safety or general welfare. Further, the granting of the Petitioner's request is in strict harmony with the spirit and intent of the

Therefore, pursuant to the zoning and development plan regulations of Baltimore County as contained within the B.C.Z.R. and Subtitle 26 of the Baltimore County Code, the advertising of the property and public hearing held thereon, the development plan and variances shall be approved consistent with the comments contained herein and the restrictions set forth hereinafter.

THEREFORE, IT IS ORDERED by the Deputy Zoning Commissioner and Hearing Officer for Baltimore County this 14th day of February, 1994 that the development plan for Oak Crest Village, identified herein as Developer's Exhibit 1, be and is hereby APPROVED; and,

IT IS FURTHER ORDERED that the Petition for Variance seeking relief from the Baltimore County Zoning Regulations (B.C.Z.R.) and the Comprehensive Manual of Development Policies (C.M.D.P.) as follows: From Section 1B01.1.B.1(e).2 (Section II.A, p.15 of the C.M.D.P.), to permit the operations and maintenance building to be as close as 50 feet to the property line in a residential transition area (RTA) in lieu of the required setback of 75 feet and, in accordance with Section 1801.1.B.1(e).3, to permit a graded buffer and 40-foot landscape buffer for construction of the operations and maintenance building in the RTA in lieu of the required ungraded and 50-foot landscaped buffer; and from Section 1B01.1.B.1.e(2) and (5) of the B.C.Z.R. (Section II.A, p.15 and 16 of the C.M.D.P.) to permit a setback and buffer of 10 feet each in lieu of the required 75 feet and 50 feet, respectively, and from Section 1501.1.B.1(e)3 (Section II.A, p.15 and 17 of the C.M.D.P.) to permit the buffer to be graded and planted in lieu of the uncleared required, in accordance with Petitioner's Exhibit 1, be and is hereby GRANTED, subject to the following restrictions:

1) The Owner/Developer may apply for its building permit and be granted same upon receipt of this Order; however, the Owner/Developer is hereby made aware that proceeding at this time is at its own risk until such time as the 30-day appellate process from this Order

2) As previously noted within this Order, Baltimore County is planning to install 4-foot wide sidewalks along a portion of the Owner's property on Walther Boulevard in a southerly direction from Dunfield Road. The Owner shall be required to continue the installation of sidewalk along the remaining portion of their property on Walther Boulevard to the point where their property ends. The Owner's portion of the required sidewalk shall be installed prior to the issuance of any occupancy permits of the proposed facility.

3) The Owner shall be permitted to install a 6-foot high security fence around the perimeter of its property, thereby causing the 7.3 acres of local open space therein to remain under the exclusive use and control of the Owner.

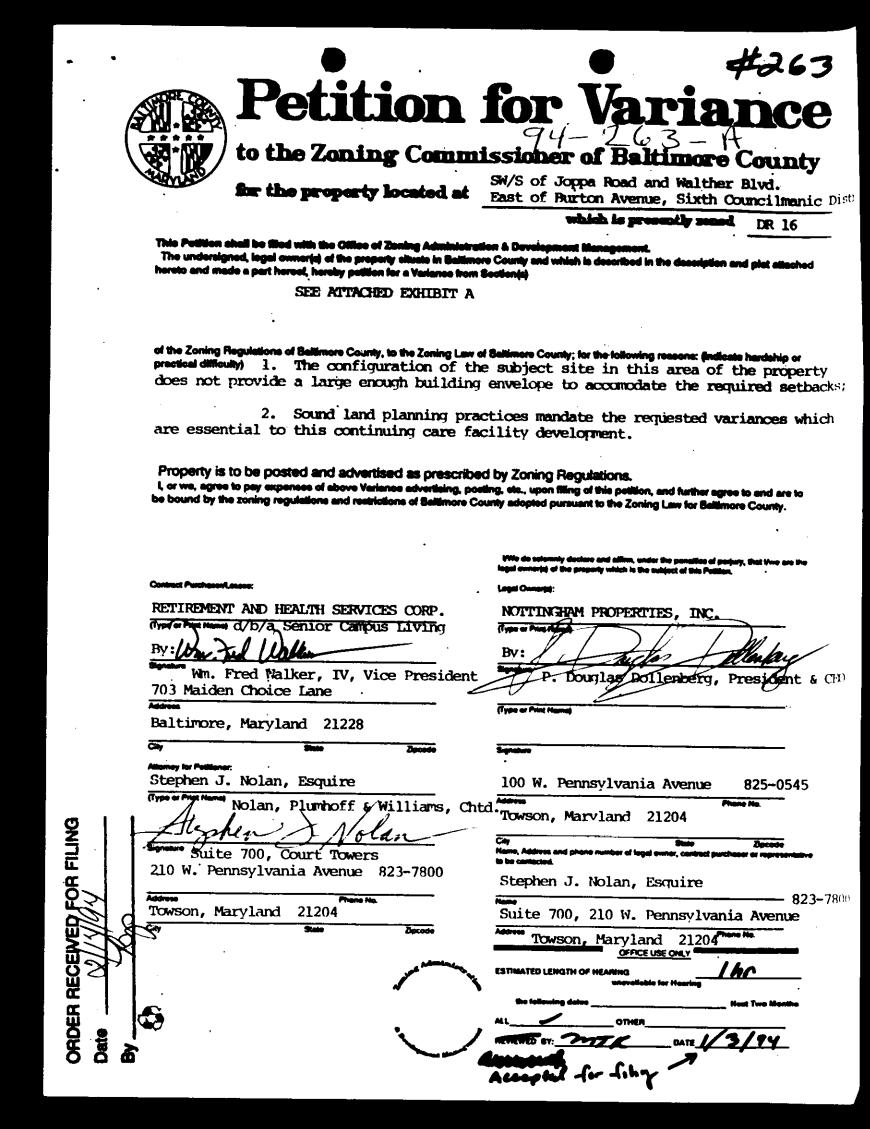

4) When applying for a building permit, the site plan and or landscaping plan filed must reference this case and set forth and address the restrictions of this Order.

Any appeal of this decision must be taken in accordance with Sec-

tion 26-209 of the Baltimore County Code.

> RE: Case No. 94-263-A, Item No. 263 Petitioner: Nottingham Properties, Inc. Petition for Variance

Dear Mr. Nolan:

The Zoning Plans Advisory Committee (ZAC) has reviewed the plans submitted with the above referenced petition. The attached comments from each reviewing agency are not intended to indicate the appropriateness of the zoning action requested, but to assure that all parties, i.e., zoning commissioner, attorney and/or the petitioner, are made aware of plans or problems with regard to the proposed improvements that may have a bearing on this case.

Enclosed are all comments submitted thus far from the members of ZAC that offer or request information on your petition. If additional comments are received from other members of ZAC, I will forward them to you. Otherwise, any comment that is not informative will be placed in the hearing file. This petition was accepted for filing on January 3, 1994, and a hearing was scheduled accordingly.

'The following comments are related only to the filing of future zoning petitions and are aimed at expediting the petition filing process with this office.

1. The director of Zoning Administration and Development Management has instituted a system whereby seasoned zoning attorneys who feel that they are capable of filing petitions that comply with all aspects of the zoning regulations and petitions filing requirements can file their petitions with this office without the necessity of a preliminary review by zoning personnel.

Note to Sophia:

I accepted this pedition without on filing review per the attorny's reject.

John Alexander was working und the applicant. They are joined for a Variance of Parking in a Res. Eorc.

Those are 2 defended for plant your than use permet is configurated. I think the variance gets possel advertised but the use permet just gets possel.

I think John A. can answer what it applicants intent was

To The Hearing Officer: #263

This petition was filed without a coura. The applicant was working with Tohm Alexandre. I accepted this petition without a coura by rejust at the applicants attorney due to a time acceptant.

RE: Senior Campus Living (Oak Crest Village - Joppa & Walther) NPW File 3684/02

Since I must be in Phila, today - could yiu do me a big favor and go see Gwen Stephens and ask her to schedule a combined Development/Zoning Variance (Use Permit Rearing) for February 1, 1934 - approx. time 60 - 90 minutes.

In my 12/30/93 cover letter I requested a February hearing but she was on vacution. Both of the attached zoning descriptions must be advertised.

Any questions call Dick Baumer at Daft McCune - 296-3333.

VIA HAND DELIVERY

Mr. Mitch Kellman Zoning Administration and Development Management County Office Building Towson, Maryland 21204

Re: New Petition for Variance
Oak Crest Village
Walther Boulevard at Joppa Road
Sixth Councilmanic District
Ilth Election District

Dear Mr. Kellman:

On behalf of the Petitioners, Senior Campus Living and Nottingham Properties, Inc., I am filing herewith the following zoning petition, plats and materials:

- 1. Three original signed Petition for Variance forms;
- 2. Facket marked "Part One of Two" containing Zoning Description for 1.19 acre maintenance building area, two copies of 200 scale Zoning Map and twelve copies of Plan and Plat to Accompany Zoning Variance prepared by Daft McCune Walker;
- 3. Three original signed Applications for a use permit for business parking in a residential zone;
- 4. Packet marked "Part Two of Two" containing separate Zoning Description for 0.27 acre parcel for use permit for parking, two copies of 200 scale Zoning Map and twelve copies of Plan and Plat to Accompany Use Permit Application; and
- 5. Our firm's filing fee check in the amount of \$520.00 payable to Baltimore County, Maryland, representing the \$285.00 sign and filing fee for the variance petition and \$235.00 for the sign and filing fee for the use permit for parking application.

Mr. Mitch Kellman December 30, 1993 page two

Because of the urgency of this senior housing project, we are respectively requesting a hearing on Tuesday, February 1, 1994, if the hearing officer's schedule permits. Thank you for your assistance and with best wishes of the New Year, I am
